Calgary, Alberta T2C 2B5

Re: Rocky Ridge Recreation Facility – Letter of Commendation

Dear Mr. Gandossi,

We would like to commend Concrete Solutions Inc. on their performance on the Rocky Ridge Recreation Facility project. Concrete Solutions was contracted to complete the Polishing and Grinding scope of work for the project by PCL. The project was challenging and required in-depth cooperation from the various trade contractors involved. Concrete Solutions was very professional in their conduct on the project and demonstrated a willingness to work with the team and respond to the needs of the project. Concrete Solutions' preparedness to do what it takes was a definite factor in the successful achievement of the milestone turnovers for the project.

Please convey our appreciation and thank you to your employees that were involved in the project. It was their dedication and exemplary work that contributed to the success of Concrete Solutions and other contractors involved in the project.

Concrete Solutions was efficient, flexible, and performed quality work. We look forward to working with Concrete Solutions again on future projects.

Sincerely yours,

PCL CONSTRUCTION MANAGEMENT INC.

Ken Greer
General Superintendent

Trevor O'Brien
Senior Project Manager

Ilian Ho
Project Coordinator
